

1 SENATE RESOLUTION

2 WHEREAS, Access to an adequate supply of electric energy
3 is of vital importance to the citizens of this State; and

4 WHEREAS, Recent events in California demonstrate the need
5 for adequate electricity transmission capacity in this State;
6 and

7 WHEREAS, The newly deregulated environment for the
8 production of electricity is resulting in additional demand
9 for transmission capacity; and

10 WHEREAS, Adequate electricity transmission capacity is
11 essential to the health, safety, and economic well-being of
12 the citizens of this State; therefore, be it

13 RESOLVED, BY THE SENATE OF THE NINETY-SECOND GENERAL
14 ASSEMBLY OF THE STATE OF ILLINOIS, that the Illinois Commerce
15 Commission, the Department of Commerce and Community Affairs,
16 and the Department of Transportation jointly conduct a study
17 of electricity transmission capacity in this State; and be it
18 further

19 RESOLVED, That the study include an analysis of the
20 existing electricity transmission capacity in this State, a
21 determination of the areas of the State where additional
22 transmission capacity is needed, a determination of the areas
23 of this State where additional demand for electricity may
24 occur, the feasibility of establishing a North-South
25 transmission corridor, and an estimate of the cost of
26 implementing the recommendations contained in the study; and
27 be it further

28 RESOLVED, That the Illinois Commerce Commission, the
29 Department of Commerce and Community Affairs, and the
30 Department of Transportation report their findings and
31 recommendations to the General Assembly by October 1, 2001;

1 and be it further

2 RESOLVED, That a copy of this resolution be delivered to
3 the Chairman of the Illinois Commerce Commission, the
4 Director of Commerce and Community Affairs, and the Secretary
5 of Transportation.
